Montezuma's Revenge™

Wherever there's mind-twisting mystery, hair-raising adventure, and nonstop action—PANAMA JOE is sure to be there. And in MONTEZUMA'S REVENGE, he's got more than he bargained for as players help him through the Aztec emperor's fortress in search of valuable treasure. Finding necessary keys, torches, swords, and amulets is no small feat as PANAMA JOE tries to avoid hissing snakes, menacing spiders, and bouncing skulls. But then disappearing floors, bridges, and laser walls are no picnic either! It's up to players to know when to fight, and when to flee as they guide this undaunted adventurer through a maze of chambers in an attempt to solve the riddle of the fortress and escape with the loot! 1 player.

Frogger® II Threeedeep!™*

Everyone's favorite amphibian resurfaces in an all new adventure! Three distinctly different screens take this fearless frog on another homeward bound journey . . . over water, under water, and through the air. That means stronger currents, fish and barracudas; whales and hippos and little baby ducks; trampoline clouds and birds and butterflies. And, of course, there's Clyde the flying Dragon! So players best hold on to their lilypads . . . there's more jeopardy and jollity than most frogs can bear.

Circus Charlie™

It's time for some laughs and thrills under the video big top as the star of the show, Circus Charlie, performs some amazing acrobatic stunts! Through 5 colorful screens (4 on VCS), Charlie the clown must leap through fire hoops, tiptoe the tightrope, balance on rolling balls, ride circus animals, and master the trapeze. There's circus music to keep things rolling, and difficulty levels that can make a crowd gasp. So take the family along . . . to the "greatest show" on video! All formats: 1 or 2 players.

Mr. Do!'s Castle®

Mr. Do!, that king of arcade clowns, is in a bit of a bind—again! This time, a pack of pesky unicorns is trampling the bricked hallways of his castle. Players help Mr. Do! rid his dwelling of these crafty, quickly-changing, (and deadly!) creatures with the skillful swing of a hammer. Sometimes it's a quick clobber to the head. Or maybe a well-chosen brick knocked out from above. Stopping these critters is a must—but slowing them down with a hole in the floor is always helpful. Time ticks away as players guide Mr. Do! through the castle's maze of rooms, fending off his intruders and grabbing keys along the way. Only when Mr. Do! has collected all the keys can he unlock the castle door, and open up an extra chance to beat these nasty critters!
